

IT'S SMART

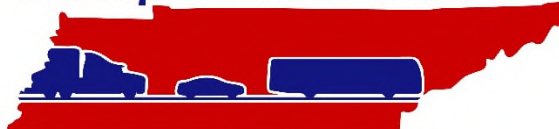

BETTER ROADS SAFE BRIDGES AND TAX CUTS

Smart Spot 3

By now you are probably aware that Governor Bill Haslam's IMPROVE Act responsibly funds road and bridge improvements in all 95 of Tennessee's counties. What's hardly been mentioned is that this legislation also incorporates the largest tax cut in the history of our state, including a 20% tax cut on food. It's been said that you'll save more at the store than you pay at the pump.

It's up to our state lawmakers to cut our taxes and provide safe roads and bridges. It's smart to support better roads, safe bridges and tax cuts. Throughout Tennessee, there are 962 critical projects. It's vital that we eliminate deteriorating roads and structurally deficient bridges that are unsafe to drive on.
